

6th Annual Soccer Parent Survey

2025

➡ 2024 Stats

Submissions

- Soccer parents completed a total of 1,255 surveys during a four-week period last year.
- Responses came from parents in 46 states in the United States.
- Responses covered children born in every year between 2002 and 2021.
- The split between male and female athletes was 58% male and 42% female.
- All levels of play were represented with Regional/Club/Tryout level the majority (63%).

🎯 You Can Help

Ways You Can Help Spread the Word:

1. Send an email with the survey link to all of your members, encouraging them to participate.
2. Share the attached graphic on all of your social media channels.
3. Like and share our posts on the Soccer Parenting social media channels.
